Hi Cindy,

It looks like what we're taking about is a briefing on the TIP, is that your understanding? If so, who should I send a doodle poll to at R8 to set up a briefing for BLM? Thanks

Leonard

This is GREAT Cindy -- thank you. I still think it might be good to pull together a call on this if EPA is still up for it. Leonard was going to do a doodle poll for some time in the next 2 - 3 weeks. In the mean time, I'll pass these docs on to our Green River DO.

Thanks. j

Jenna –

Following our conversation on Thursday evening, I wanted to provide copies of the presentations where EPA Region 8 rolled out the concept of a U&O FIP to tackle emissions from existing oil & gas sources on the Uintah & Ouray Indian Reservation to our federal partners 10/20/15. Leonard was connected to that via webinar and I had sent him a copy of the presentation when he requested it following the meeting.

We made similar presentations to industry, NGOs, and local government (e.g. County Commissioners) too.

Carl Daly, our Region 8 Air Program Director, described the legal authorities piece and I described what we understood of our oil & gas emission universe on the U&O.

If you've any questions, feel free to call or email me.

Thanks,

**Cindy Beeler**

Jenna: Cindy can work with you on the FIP issue. We consulted with federal family on it a few months back. I believe we are very close on the MB doc. Joan

Hello friends -- where are we on edits to the paper Leonard sent over? I may have missed it in my 977 e-mails.

Also, as a follow-on to yesterday's meeting, would it be possible for BLM to be briefed on the U&O tribal rule/FIP? It sunk in yesterday that the rule is for Indian Country, so implicates much of our Vernal Field Office.

Thanks. j
